WHAT INTRISCAPE IS

Your whole firm in one place, in the browser

Intriscape runs an interior design or modular furniture firm from the first enquiry to the final invoice. It works on a laptop, tablet or phone, with nothing to install. It suits a two-person studio as well as a firm with its own factory.

CRM

Leads and follow-ups, quotations, projects, price list, invoices, challans, team chat and attendance.

Slate

Rooms in 2D and 3D, drawings, quotations, cut list, panel labels, CNC files, renders and a 360° view.

Lead integrations

Enquiries from Google Ads, Facebook, Instagram, your website and sites like JustDial arrive in the CRM by themselves.

Company & team

Your name, logo and GSTIN on every drawing and quote; you decide who signs in and what they see.

AI credits

Floor plans and drawings read by AI, paid only when you use it. 100 credits free to start.

HOW IT WORKS

One job, from enquiry to handover

Each step uses what the last one knows, so nobody types the same size or rate twice.

1

Lead

Enquiries from ads, your website or Excel land in one list, with call reminders.

2

Design

Draw each wall with units from your price list, or let AI read the floor plan.

3

Quotation

The drawing becomes room-wise lines with sizes and rates, on your letterhead or on WhatsApp.

4

Invoice

Bill 10%, 40%, 50% or your own stages, with GST, and track every payment.

5

Materials

Purchase orders for boards, laminates and hardware come from the design.

6

Site and handover

Site photos and approvals on one private link for the client.

THE BEST OF INTRISCAPE

Eight reasons interior firms switch

1 Slate: design every room once, in 2D and 3D

Place wardrobes, kitchens, lofts and TV units wall by wall. Slate keeps to standard carcass sizes, adds fillers and skirting, and works out the inside: shelves, drawers and hanging rods. The same design goes to the client, the quotation and the factory, so nothing is drawn twice.

- 3D view and photo renders with real laminate photos
- A 360° view the client can look around in
- Drawing sheets as PDF and AutoCAD DXF
- Export to SketchUp to keep working
- Cut list, panel labels and CNC files
- Standard sizes, fillers and skirting added for you
- Walkthrough video, in day or evening light
- Ready-made room layouts and 24 colour styles
- Hob unit with a 600 chimney; dado tiles in real sizes
- 1,100+ Asian Paints shades, 35 wallpapers, designer fans

2 AI floor-plan reading

Upload a photo or PDF of the customer's floor plan. AI reads the rooms, walls and sizes and sets them up, ready to design on. An existing drawing PDF can also be read back into Slate as a project. You pay only for what you use, with 100 free credits to start.

3 Quotations that build themselves

- Room-wise lines with sizes, specifications and rates from your own rate card
- Your own range names, for example Economy, Standard and Premium, each with its own rates and specification
- Switch a cabinet or a whole room to another range in one click; the price follows
- Your logo, address and GSTIN on a clean PDF, with drawings attached if you like
- Every revision kept; discount limits for staff; cost and profit visible to the admin only

4 Leads and follow-ups

Leads from Google Ads, Facebook, Instagram, your website and sites like JustDial arrive by themselves, with a reminder for the right telecaller. Import leads from Excel, record each call and get follow-up reminders.

5 Your price list, in your own Excel layout

- Upload any Excel or CSV file; titles and logos above the headings are skipped
- Match your columns once; Intriscape remembers your layout for next time
- Separate rate columns such as Basic, Gold and Platinum become your ranges
- Old quotations come in from Excel too, room by room
- Download in your own layout, change rates in Excel, upload again, and see every change before saving

6 GST invoices and payments

Tax invoices with your GSTIN, HSN or SAC codes, CGST and SGST or IGST, place of supply and amount in words, numbered by financial year. Bill in stages from the approved quotation and make delivery challans without prices. **Who owes us** lists every unpaid balance and how late it is, with a one-tap WhatsApp reminder. Please confirm the codes for your work with your CA.

7 Your team, each with the right access

Role	Sees and does
Admin	Everything: rates, margins, invoices, team
Estimator	Leads, quotations and the price list
Designer	Slate, drawings and factory files
Telecaller	Leads and calls; no invoices or payments

Team chat, staff attendance approved by the admin, and an assistant that answers questions like “which follow-ups are due today?”

8 Projects, purchase orders and a private link for your client

Every confirmed job gets its stages, site photos and approvals in one place, and the client follows it on one private WhatsApp link, with no sign-in. Site visits can carry the phone’s location, for your team only. Purchase orders for boards, laminates and hardware come straight from the design, one per supplier.

WHAT CHANGES FOR YOUR FIRM

Less typing, faster quotes, fewer mistakes

Quote on the day of the site visit

Floor plan in, rooms drawn, quotation out.

The factory gets what the client approved

Drawings, cut list and labels come from the same design.

Every rate the same, every time

The owner sets rates and discount limits once; staff cannot go below them.

The whole business on one screen

Leads, quotations, invoices and payments, from anywhere.

WHO MADE IT

Built inside a working interior firm

Intriscape was built and tested on real projects by working interior designers, estimators and telecallers in Hyderabad, with 25 years of industry experience behind it, before it was offered to other firms.

GETTING STARTED

Start this week, pay only if it works

10 days

0

Things to install. Any browser on laptop, tablet or phone.

100

Free AI credits to try the floor-plan reader.

Most firms add their logo, GSTIN, bank details and price list, invite their team, and send their first quotation the same day. Leads and price lists come straight from Excel. A new account comes with sample leads, a quotation and a project, so your team learns on them first.

HOW INTRISCAPE COMPARES

One software instead of two

Most firms pay for two kinds of software: one to run the business and one to design. Intriscape does both, from the same drawing.

	Intriscape	Typical interior project-management software	Typical interior design software
Leads, follow-ups and telecaller tracking	● Included	● Included	○ Usually not included
Leads from Google, Facebook and your website	● Every plan	● Often higher plans only	○ Usually not included
Room design in 2D and 3D	● Built in (Slate, Professional plan)	● Drawings usually made in another tool and uploaded	● Included
Quotation priced straight from the drawing	● Included	● Quotes and BOQ usually typed or imported	● Varies
Cut list, panel labels and CNC files	● Included	○ Usually not included	● Varies; often an extra module

Small features locked behind higher plans	● Never: plans differ only in Slate and team size	● Often	● Varies
Free trial	● 10 days, no card	● Often a demo call instead	● Varies
Prices published	● Yes; pay for 3, 6 or 12 months	● Often yearly; some prices on request	● Varies
Published price per user per year, before GST	**₹10,000** with Slate (Professional, yearly) ₹5,000 with the Festive Season Offer	About ₹12,000 to ₹16,000 or more	Usually a separate licence for each designer

● Included ● Partly, or depends on the product or plan ○ Usually not included

₹7,990 a year for 3 people (Standard, yearly, Festive Season Offer) is less than one month of a designer's salary, and the whole team gets leads, quotes, projects and GST billing.

Offer price + GST, first payment, till 31 December 2026. Regular price ₹15,990 a year.

Where Intriscape is strongest

Firms that design and quote modular interiors: kitchens, wardrobes, TV units and lofts, from the site visit to the factory.

Coming next

Factory and production modules for firms with their own factory (Enterprise plan). If you mainly need detailed stock and production control today, a full factory ERP may suit you better.

This page compares Intriscape with general types of software used by interior firms in India. It is based on information that vendors publish on their own websites and price pages, as seen on 24 October 2026. It does not name or describe any one product. Features and prices differ between products and plans and change over time, so please check with each vendor. All trademarks belong to their owners.

QUESTIONS FIRMS ASK

Is our data private?

Yes. Each company's data is kept separate, and only your own team can open it. Admins can save a weekly backup to their own computer.

Can we bring our leads, rates and quotes?

Yes: leads, price list and old quotations, from Excel or CSV.

What happens when a plan ends?

You can still sign in and see everything for 90 days, and saving resumes as soon as you renew. Ask us for a copy of your data any time.

How do we get help?

Write to hello@intriscape.com or call +91 99080 00555. Standard: reply within 1 working day; Professional: within 4 working hours.

IMPORTANT

Disclaimer and limitation of liability

Intriscape is a software tool that helps you prepare designs and documents. You stay responsible for checking everything it produces before you use it. By using Intriscape you accept the terms below, together with the full Terms of Service at intriscape.com/terms.html.

1. **A tool, not a professional service.** Intriscape helps prepare designs, drawings, 3D views, renders, quotations, cut lists, panel labels, machine (CNC) files, invoices and other documents. It does not give design, architectural, engineering, structural, electrical, tax or legal advice, and it does not replace the judgement of qualified people.
2. **You must check every output.** Drawings, dimensions, measurements, quantities, cut lists, panel labels, machine files, rates, quotations, GST amounts and invoices must be checked by your own qualified staff before they are sent to a client, used to order material, cut, manufacture or install. Measurements must always be verified on site.
3. **AI features can make mistakes.** Floor plans and drawings read by AI, and any text written by AI, may be wrong or incomplete. Check every room, wall and dimension against the original before you rely on it.
4. **Pictures are indicative.** 3D views, renders and 360° views show the design approximately. Colours, textures, laminates and light on screen may differ from the real material. Brand names, catalogues and images belong to their owners.
5. **Provided "as is".** To the maximum extent permitted by law, Intriscape is provided "as is" and "as available", without any warranty, express or implied, including any warranty of accuracy, completeness, fitness for a particular purpose, or uninterrupted or error-free operation.
6. **No liability for design, drawing or project losses.** To the maximum extent permitted by law, Intriscape, the company that operates it, its owners, staff and partners are not liable for any loss or damage arising from the use of, or inability to use, Intriscape or anything it produces. This includes, without limitation: design or drawing mistakes; wrong measurements, sizes or quantities; wasted or wrongly ordered material; manufacturing, cutting or installation errors; rework or delays; disputes with or claims by your clients; and loss of profit, business, contracts, data or goodwill, or any indirect, incidental, special or consequential loss.
7. **Our only obligation: fix the software.** If you report a defect in the software and we confirm it, our only obligation is to correct it in a software update within a reasonable time. This is your sole and exclusive remedy.
8. **Upper limit.** If, despite the above, any liability is found against us, our total liability for all claims together will not exceed the subscription fees you paid for Intriscape in the three months before the event that caused the claim.
9. **Orders you place.** Any material or factory order made from Intriscape is made to the sizes and specifications in the order you confirm. Checking them before you confirm is your responsibility.
10. **Your data.** Keep your own copies of important quotations, drawings and invoices. We are not responsible for loss caused by your internet connection, device or browser, or by people you give access to.
11. **Indemnity.** You agree to protect Intriscape and the company that operates it against any claim by your clients or anyone else that arises from your designs, quotations, invoices or work, or from your use of Intriscape.
12. **Law and courts.** These terms are governed by the laws of India. Any dispute is subject to the exclusive jurisdiction of the courts at Hyderabad, Telangana.
